
A part of Rezidor Hotel Group

Stockholm Waterfront Congress Centre and Radisson Blu Waterfront Hotel are part of The Rezidor Hotel Group, one of the fastest growing hospitality companies in the world. The group operates the hotel brands Radisson Blu, Country Inn, Hotel Missoni and Park Inn by Radisson and features a portfolio of more than 400 hotels in operation and under development with more than 86 300 rooms in over 60 countries.

Radisson Blu Waterfront Hotel

The four-star Radisson Blu Waterfront Hotel adjoins the congress centre which can be accessed from the main lobby. Convenient for attending meetings and events and equally convenient for those seeking to enjoy all that Stockholm has to offer. The finest shopping, culture and entertainment experiences are just minutes away.

Radisson Blu Waterfront Hotel offers 414 stylish rooms, including three luxury suites. A number of the rooms have breath-taking views of the surrounding water. There is also an excellent all-day restaurant, bar and a gym.

Facts

Exhilarating architecture

- 21 kilometres of stainless steel bars crown the top of the congress building. A spectacular addition to the city's skyline, it's already been dubbed "the Crown of Lake Mälaren".
- 14 000 m^2 of flexible sectioning solutions allowing a vast number of floor plan combinations – for 500, 1 000 or 3 000 people.
- Stone, steel and glass dominate the building. Scandinavian design at its best.

Greener than green

- Stockholm Waterfront is more than twice as energy efficient as the EU standard "Green Building".
- The glass façades are 1 040 m^2 solar collectors that on average gather 1 MW of heat energy on a daily basis. This is equivalent to 90 000 normal low energy bulbs.
- The building is cooled by water drawn from the lake, stored in 250 tonne of ice tanks in the basement.
- About 20 000 m^2 of material has been reused from the building previously occupying the site.

The most central location

- Enjoy panoramic views over the waters of Lake Mälaren, the City Hall and most of the capital city.
- Escalators next to the building connect to both the airport shuttle train and subway platforms at the Central Railway Station.
- There are some 4 800 hotel rooms within a radius of 300 metres from the congress centre.
- The adjoining Radisson Blu Waterfront Hotel is an international first class hotel offering 414 comfortable and well equipped rooms and an all-day restaurant and bar.

Proudly

Stockholm Waterfront Congress Centre proudly presents a venue where anything is possible

Spectacular

Stockholm Waterfront Congress Centre is Sweden's newest and most versatile venue for large-scale meetings and events. Located in the heart of Stockholm, across the water from the City Hall, the modern architecture is a spectacular addition to the city skyline.

Whatever event you're planning, let us help you make it an exceptional experience.

Everything you need

Stockholm Waterfront is located between the Central Railway Station and the City Hall – host to the annual Noble prize dinner. That means easy access to some of the best shops, restaurants and sights in Stockholm. Within a radius of 300 metres there are some 4 800 hotel rooms. Directly connected to the congress centre is the Radisson Blu Waterfront Hotel, a 414 room international first class hotel. The railway station and the Arlanda Express train platform are easily accessible by escalator right next to the congress centre.

Designed to bring the walls up – or down

Stockholm Waterfront Congress Centre comprises 14 000 m² of meeting and exhibition space. You'll find meetings facilities offering daylight and advanced supporting technology. You'll also find a flexibility that is hard to beat. Among other things, our moveable walls can be set up in any number of ways to create the perfect venue or combination of venues. You'll find an auditorium for up to 3 000 people as well as a range of smaller conference rooms. The foyer area represents an additional 3 000 m² of possibilities, whether you are hosting a select business meeting, an exhibition, a gala dinner, or even a sports event or concert.

And then there is the water

The congress centre is built right on the edge of the water. It offers impressive views overlooking Lake Mälaren. Across the waterway in one direction you can see the City Hall and in the other direction you'll see the Old Town and Parliament. And should you want to get closer still, the waters of Stockholm are some of the cleanest in the world which means you can go swimming or fishing right in the city centre.

Stockholm

Stockholm was the first city to be named "European Green Capital" in 2010. But Stockholm is much more than green and clean. It's vibrant. It's laidback. It's beautiful and it's got something for everyone. The city is known for producing innovative IT and media businesses, sleek designs, edgy fashion and world-class nightclubs. It offers a cosmopolitan atmosphere with a bustling café and restaurant culture and has one of the highest concentrations of museums and galleries in the world. Beyond the buzzing metropolis of the city centre's boutiques and restaurants, Stockholm is laid out in a system of 14 interconnected islands. Yet the city centre is small enough to allow you to take it in on foot. The waters of Stockholm offer a stunning backdrop to everything else the city has to offer.
