

WATER SHUTTLE SERVICE

ARRIVAL INFORMATION:

Welcome to St. Martin!

Once you have arrived at Princess Juliana International Airport, passed through customs and collected your luggage, exit into the main arrival hall. Go to the **HERTZ BOOTH** and check in. From here, you will take a four-minute shuttle ride to the Water Shuttle dock. Waiting time for the water shuttle varies from one minute up to a maximum of 20 minutes.

For your convenience, the boat used for the water shuttle can be enclosed so as to keep you dry in the event of inclement weather, and offers comfortable and shaded seating. Refreshments are available for you to enjoy during the scenic 30-minute ride along the west and north coasts of the island in route to the Radisson Blu Resort, Marina & Spa St. Martin.

This unique experience sets the tone for a truly memorable visit to St. Martin, whether arriving or departing the island. Guests have the option of taking the water shuttle service one-way or round trip. Should you desire, a mini-van can serve as an alternate form of travel for those electing for one-way travel, or for those arriving after dark. Travel time by land is approximately 45 to 60 minutes.
